7 April 2014

Dear Sir

**Grace Bates, Deceased  
Regulation 28 Report to prevent future deaths**

I am responding to your concerns that there should be a specialist diabetic nurse available over the weekend at the hospital.

Our Head of Diabetes & Endocrinology; Business Manager for Diabetes and our Lead Diabetes Nurse submitted a business case for the approval for the appointment of a minimum of one WTE IPDSN to complement the current diabetes team, to provide improved cover for the Hospital across the calendar week.

The business case has been approved and an appointment is awaited.

Yours faithfully,

  
Medical Director
