29 September 2014

Dear Mr Osbourne,

RE: Inquest touching the death of Aaron Michael VRANAS Ryan
Inquest held on 28th July 2014 at Coroners Court Amphill
Regulation 28 report

Thank you for your letter dated 15th August 2014 in relation to this very sad case. It is Bedfordshire Clinical Commissioning Group's intention that people with Attention Deficit Disorder (ADHD) will be supported through local services.

This is being considered currently, as part of the procurement of mental health services in Bedfordshire, which is due to be completed by April 2015. In the interim period, Bedfordshire Clinical Commissioning group will work with South Essex Partnership Trust on the development of a pathway that clearly outlines the responsibilities for safe and effective care of people that have a diagnosis of ADHD and a psychiatric illness and are in receipt of services from local and specialist services. This will be completed by end of October 2014.

I hope this addresses your concerns in relation to the findings of this case, if you require any further details I will be happy to provide these for you.

Yours sincerely

[REDACTED]
