

**APPENDIX 12: BREAKDOWN BY VALUE OF CLINICAL NEGLIGENCE CLAIMS FROM THREE SOURCES: (I) THE BUDGET EXERCISE UNDERTAKEN AS PART OF THIS REVIEW, (II) THE ACUMENSION DATA DETAILING 62 POST-LASPO CASES, AND (III) DATA FROM THE MEDICAL PROTECTION SOCIETY**

1. Budget exercise. As part of the budget analysis exercise (see chapter 3 and appendix 2), 62 clinical negligence cases were analysed. In terms of the monetary value claimed, they were distributed in the following way:

<b>Value (£)</b>	<b>Number of Cases</b>	<b>Proportion of Cases per Band</b>
0-25k	8	13%
25-50k	13	21%
50-100k	20	32%
100-250k	15	24%
250k+	2	3%
Claim value unknown	4	7%

2. Data from NHS Resolution. As referred to in paragraph 15.4 of chapter 4, and paragraph 3.3(iii) of chapter 8, NHS Resolution sent through a spreadsheet prepared by Acumension in respect of 62 cases, where (a) the conditional fee agreements had been entered into after 31<sup>st</sup> March 2013 and (b) there was an approved or agreed budget. The raw data is at appendix 7. 53 of these were clinical negligence cases which were subject to costs management, and are banded according to value as set out in the table below:

<b>Agreed Damages</b>	<b>Number of Cases</b>	<b>Proportion of Cases per Band</b>
0-25k	18	34%
25-50k	17	32%
50-100k	9	17%
100-250k	5	9%
250k+	4	8%

3. Data from the Medical Protection Society. The following is a breakdown by value of the 1,214 clinical negligence claims referred to in chapter 3, paragraph 4.2:

<b>Agreed Damages</b>	<b>Number of Cases</b>	<b>Proportion of Cases per Band</b>
0-25k	1,047	86%
25-50k	133	11%
50-100k	32	3%
100-250k	2	0%
250k+	0	0%
