Subject: Emilliano Raul Sala - Regulation 28 Report to Prevent Future Deaths (ref: 171881)

Ms [REDACTED]

Thank you for your email and the earlier copy of the Regulation 28 Report to prevent Future Deaths.

I am the Chairman of the Executive Association of Great Britain which is networking group in London that meets once a month. We do not arrange the travel for any of the members or the guests to our meetings. In addition none of our members travel by air to attend the monthly meetings. I believe that the report and concerns about the air travel provided by an unlicensed operator are not applicable to our particular circumstances.

Yours sincerely
