Executive Director of Communities and Environment

Miss Lorraine Harris,
Area Coroner,
East Riding of Yorkshire and City of Kingston
Upon Hull.

Date:

31st July 2023

Dear Miss Harris

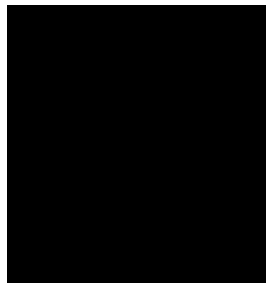

Death of Richard Stephen Littlewood

Following your email of 26th June 2023 and addressing your concerns raised in section 5(2) of your report to prevent future deaths, I can confirm the following:

1. The chevron signs warning of the bends facing traffic in both directions have been replaced. This work was carried out in July 2023.
2. A winter visibility survey was undertaken at the bends on 17th January 2023,
3. This has been followed by a summer visibility survey undertaken on 13th July 2023.
4. These surveys confirmed that the visibility available around the bends is suitable for the 40mph speed limit that is in place and that the existing hazard warning centre lines are appropriate.

There are no additional works planned at this site, though we will continue to monitor the condition of the highway and signing.

Yours sincerely

Principal Engineer, Civil Engineering Services

Chief Executive
