

HM Assistant Coroner for Cheshire

Charlotte Keighley

13-07-2023

Dear Coroner

Re. Regulation 28 Report to Prevent Deaths

We write with reference to your Regulation 28 report which was issued to 3D Trans Limited in connection with the death of Mr David Lyth on 30 November 2021.

We can confirm that the company has now strengthened its training programme to ensure that all drivers receive quarterly refresher training against the company's coupling and uncoupling procedure, to include reviewing the written procedures, watching a video and completing a test to confirm their understanding. These records will be retained by the company for a minimum of two years.

We trust that this amendment is sufficient to satisfy the report issued, but please do not hesitate to contact us should you require any additional information.

Kindest Regards,
