Dear Coroner,

RE: REGULATION 28: REPORT TO PREVENT FUTURE DEATHS (1)

Thank you for sharing this report with the Health Services Safety Investigation Body (HSSIB), we are sorry to hear of Lauren's death and to read the findings within your report.

On 20 December 2023, our Investigations and Insights team held an Intelligence Review Meeting; at this meeting we review all patient safety concerns and insights received into our organisation and consider them for further exploratory work. I would like to assure you that the Regulation 28 Report sent to us was considered in this meeting, along with other information available to us and I can confirm that further exploratory work is being undertaken in relation to the issues raised in your report.

This exploratory work will be further reviewed by the end of January 2024 when we will consider the scope for an HSSIB investigation into issues related to Paramedic interpretation of ECGs in the community.

Yours sincerely
