7th March 2024

Dear Lynne,

In relation to the PFD report, I can confirm that The Pipeline Industries Guild are undertaking the following actions:

- March – following on from conversations with BBV and the sharing of lessons learned the attached note has been issued to all our members.
- April – webinar to take place to discuss the lessons learned, safety measures to be implemented both with the trailers and on site and the impact this has had. For information all our webinars are recorded and promoted throughout the year via our YouTube channel. [Webinar-HS2 Bickenhill-Coil Trailer Fatality-Lessons Learnt!](#)
- September – our quarterly online publication "In the Pipeline" which is issued to members and available via our website and social media platform will feature the lessons learned message & output from the webinar [Guild News](#).

Internal measures:

- by ensuring safety moments are part of our standard agendas for all exec and board meetings
- continuing to raise safety awareness through our technical panels
- our awards will continue with the H&S commendation (which was awarded to LaySAFE – SAFE Coiled Pipe Installation in 2023)

Please do not hesitate to contact me should you wish to clarify the above or require further information.

Kind regards

Executive Director
The Pipeline Industries Guild
