# **Emmanuel Kolade LADAPO (died 28.02.23)**

#### THIS REPORT IS BEING SENT TO:

1.

Chief Executive
Camden & Islington NHS Foundation Trust (C&I)
4<sup>th</sup> Floor, East Wing
St Pancras Hospital
4 St Pancras Way
London NW1 0PE

#### 1 CORONER

I am: Coroner ME Hassell

Senior Coroner Inner North London

St Pancras Coroner's Court

Camley Street London N1C 4PP

#### 2 CORONER'S LEGAL POWERS

I make this report under the Coroners and Justice Act 2009, paragraph 7, Schedule 5, and The Coroners (Investigations) Regulations 2013, regulations 28 and 29.

## 3 INVESTIGATION and INQUEST

On 13 March 2023 one of my assistant coroners, Jonathan Stevens, commenced an investigation into the death of Emmanuel Ladapo aged 24 years. The investigation concluded at the end of the inquest yesterday.

I made a determination at inquest of death by suicide.

I recorded a medical cause of death of: 1a asphyxiation via plastic bag and inhalation of nitrogen gas.

# 4 CIRCUMSTANCES OF THE DEATH

Mr Ladapo had been diagnosed with paranoid schizophrenia and depression. He had undergone several hospital admissions, had been treated by the Camden & Islington (C&I) early intervention service and was at the time of his death being treated by one of the C&I rehabilitation & recovery teams.

#### 5 CORONER'S CONCERNS

During the course of the inquest, the evidence revealed matters giving rise to concern. In my opinion, there is a risk that future deaths will occur unless action is taken. In the circumstances, it is my statutory duty to report to you.

#### The **MATTERS OF CONCERN** are as follows.

- 1. Mr Ladapo lived with his sister, who wanted very much to be involved with his care. However, I did not hear any evidence of engagement with her by C&I, either:
  - generally, during his time with the early intervention service or the rehabilitation & recovery team; or
  - when in April 2022 he was found to have ordered a bolt gun on the internet that was only intercepted because it was discovered by the delivery driver; or
  - on transfer from the early intervention service to the rehabilitation & recovery team in June 2022.

Lack of engagement with families is a story that I have heard often in inquests, and was the subject of prevention of future deaths reports that I sent to you on:

- 04.03.21 regarding Grazyna Walczak; and
- 17.03.21 regarding Ben O'Hara;

#### and to your predecessor on:

- 11.01.16 regarding Efstratios Voukelatos; and
- 29.04.15 regarding Finnulla Martin.
- Mr Ladapo was noted to have deteriorated by the time of his consultation on 19 January 2023, and he was still depressed on 16 February 2023, but the psychiatrist who saw him on each occasion omitted to ask him whether he felt suicidal.

This was the error of an individual, but it too is an omission that I have observed and written to C&I about before. Furthermore, the initial management review did not identify the omission.

I am concerned that the importance of exploring the suicide question does not feature highly enough in the consciousness of C&I staff.

#### 6 ACTION SHOULD BE TAKEN

In my opinion, action should be taken to prevent future deaths and I believe that you have the power to take such action.

## 7 YOUR RESPONSE

You are under a duty to respond to this report within 56 days of the date of this report, namely by 24 June 2024. I, the coroner, may extend the period.
