

Received from Department of Health and Social Care 27/11/24
PFD response

Good afternoon,

Thank you for sending the Reg 28 report to the Department of Health and Social Care in relation to the sad death of Patricia Lines.

The Department has reviewed the concerns outlined in the report and, as responsibility for guidance on immunisation procedures, including the "The Green Book", lies with UK Health Security Agency (UKHSA), we have determined that they are better positioned to address these issues. Since UKHSA are also a named recipient in the report, we have engaged with them, and they have confirmed receipt of the report and are working on their response.

Kind regards,

DHSC PFD Oversight Team
