Dear Mr Brittain,

Further to my letter on 13/06/2025, I confirm that I have not generated any prescription to this patient after receiving a letter from his psychologist suggesting the potential risk of suicide. I received the letter on 07/07/2024, and I have never seen the patient or prescribed the patient with any medication ever since. This is to confirm what I have written in my response letter on 13/06/2025 that clarifies there is no prescription made at all after knowing that the patient was at any suicidal risk.

Hoping that this letter clarifies my situation with this patient and reassures you that I have not prescribed any medication to a patient at risk of suicide.

Yours sincerely,

*Dictated but not signed to avoid delay*
