Mr Tom Osborne
Senior Coroner for Milton Keynes

Friday 8 August 2025

Dear Mr Osborne

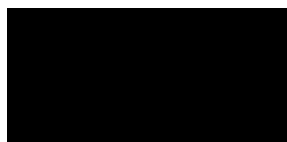

REF: Regulation 28 Report to Prevent Future Deaths

Thank you very much for your Report dated 1 August 2025 and for your request regarding visibility of primary care records.

In Buckinghamshire we are fortunate to have a Summary Care Record which contains a record of encounters with all health services. This includes primary care diagnosis codes and lists, medication lists and brief summaries of primary care appointment outcomes. The Summary Care Record is visible to all hospital colleagues and access will be linked into our Acute Electronic Patient Record front screen when this launches in September / October 2025. This visibility would I believe mitigate against the issues noted in the Report although at the moment some patients have opted out across the system as a matter of personal choice.

In addition, many of our colleagues have access to the full GP record in EMIS if they are working in our Trust community services.

Yours sincerely,

Chief Executive
Buckinghamshire Healthcare NHS Trust

OUTSTANDING CARE

HEALTHY COMMUNITIES

AND A GREAT PLACE TO WORK

Providing a range of acute and community services across Buckinghamshire
